The Debate on the Pay and Expenses of the Mission in Washington-Reasons

for Cabinet Economy.

LONDON, June 2-5 A. M. The debate in the House of Commons last even-ag on the salary of the British minister at Washington was unusually interesting. It arose from the fact that the approval of the House was required to an increase of salary proposed by the

Bir H. Wolf moved that the amount the goverament recommended be reduced \$5,000. He said he opposed the increase because Sir Edward Thornton's residence at Washington had been signalized by a series of diplomatic disasters and because Americans would regard such increase as a mark of the continuance by the present government of the approbation which the late government lavished upon the negotiations of the

Washington treaty. Mr. Beurke, Under Secretary of the Foreign De partment, stated that no blame could attach to Sir Edward Thornton for the conduct or result of the negotiations with States; and he stated the reason for adding to the salary was simply because the expenses of living in Washington nad

After the deteat of Sir H. Wolf's motion no furher objection was made.

THE CAUSE OF CHARITY-MR. BELLEW'S CASE. Mr. Wilkie Collins makes another appeal for asstance for Mr. Bellew, the elocutionist, whose lliness continues, and whose destitute condition is attributable to the fact that the proceeds of his readings have been largely devoted to charitable

STEAM TO AMERICA.

LONDON, June 2-6 A. M.

The Times contradicts the reports of the compiete withdrawal of the Cunard steamers from Boston because of the scarcity of freight, and states that the only change to be made is that some or the steamers which go to Boston will return by way of New York.

The National line will establish a weekly service to Boston on a similar plan.

THE TURNFEST.

Olympian Games at the Schuetzen Park-Grand Athletic Struggle Between Ger-

Yesterday was a memorable one for the German Turners, the great athletic organization among rman brethren, which has its branches and odges all over the United States, all through Germany and wherever the German race are located. The united associations of the Turnverein of New York and Jersey City gave a grand athletic festival and picnic, which was held at Schuetzen Park, on Union Hill, some five miles north of Hoboken. The New York Turners, to the number of 205, together with the Turners' cadets, armed with Springfield smooth-bore cut-off muskets, and the Turners' street to Jersey City, under the command of the president of the New York Turnverein, Mr. Gustave Freygang, and were met at the Jersey side by the Turnverein of Jersey City under their presnt, Mr. Schlegel, to the number of 110. A spe cial train on the Northern New Jersey Railroad at 12 o'clock the train started and shortly after they all arrived safely at their pleasurable iestination. A committee of twelve gentlemen had been appointed, who were early on the and six from the Jersey City Turnverein, to make all proper arrangements to make sports and lestival a success, and it be said that these gentlemen did everymust be said that these gentlemen did everything in their power to fulfill their duties. The names of the Committee for New York were E. Gruner, G. Schoier, G. Richart, C. Stahl, G. Schosser and E. Rosenbaum. From Jersey City the Committee was composed of Alderman Charles Stier, F. Schwind, Albert Schlegel, Adolph Simon, J. Muiler and H. Haaser. There were a number of Turner sharpshooters at the ground. The buildings and booths in the park were hand-cornely decreated with American and German. somely decorated with American and German flags. In a truly lraterfal spirit the Turner's had myled the members of the New York and Hudson County Caledonian Clubs to compete and contest with them in the attictic sports. A number of Scotca attletes responded to this invitation and took part in the exercises. Up to ten o'clock last evening fully ten housand it was intended to have been dealer to the county of the service of Pingst Montag, which is the German's St. Patrick's day; but owing to the rain storm which occurred it was posponed until yesterday. The dancing platform was crowded all cay and during the entire evening by the terpsichorean votaries of both sexes. Everything in and around Schnetzen Park is perfection itself, with the exception of the dancing platform, which is not built high enough from the ground, and consequently when dancing is in progress under the low roof of the platform the dast is so dense that it becomes almost opaque, and the result is that ladies' dresses are destroyed by the thick and fine particles. The park in other wavs has been adorned by nature and art, and is not equaled by any other pichic ground in the State of New Jersey. Late in the atternoon the games commenced and were continued until dark. Among the sports were standing jumps, running like leaps, particle climbing a robe, wiresting by the Turners, broadword, dancing by the Caledonians and dancing the light and fining. There were also boys and girls races of short distances and a variety of games too numerous to mention. The Scotch athletes who were present were McMillan, who was second in putting the heavy stone; Frank Duke, who carried of the prize for the heavy stone. In the broadsword dance there were two contestants—the old veteran L. D. Robertson, and rocitised a small silver medal, which was presented to him on behalf of the vetage has prize in the standing ling, and on the prize in the standing ling of the least of the standing ling and prize prize in the season of the partic point in the was no prize given for

in the long leap. Altogether, the struggle of a friendly mature between Scotland and Gardenary was the most interesting and first of its kind ever known in the United States. One thing must be said, however, and that is, that the furners use a board elevation, which gives a certain impetus in the spring or jump, and tais is used only in a gymnasium property. The clear rush is the best impetus, and suffices for English, litish or Scotch athletes. There is no doubt, however, that the German Turners are a magnificent body of young men, physically considered, and this project of throwing open the contest to people of other nationalities is one of the most excellent plans ever put into execution.

In all gymnastic exercises the Turners are far superior to those who contested with them yesterday, but in purely athletic open air sports they have yet something to learn. It is understood that at the Irish National Athletic Games, which are to take place shortly in this city, under the auspices of the Clan-Av-Na-Gael association, that invitations will be sent to the New York Turn-verein and the Caledonian clubs to participate in the sports in a friendly way. This is the right way to work, and such cordial exchanges of good feelings will be productive of great and lasting good to the athletic sports of the country.

NEW YORK CITY.

Mayor Havemeyer yesterday swore in Mr. Thomas R. Tanuan as one of the new Court House commisstoners, and he received his certificate of appointment.

The financial condition of the City Treasury shows as follows :--Balance on hand May 23.....

At a meeting of the Tammany Society last evening the ioliowing named members were initiated:—David McAdams, Robert J. Nieven, Secretary of the Hariem Railroad; Lawrence R. Jerome, James H. Hunting, Peter H. Jackson, ex-Junge S. Jones and John F. Cleveland, brother-in-law of the late Horace Greeley.

the Introductory Department of the College of the City of New York began yesterday morning, and will be completed to-day. Six hundred and six-teen students presented themselves. The subjects in which they were examined were spelling, arith-metic, grammar and reading.

The New York Neurological Society held a meet ing last night at the College of Physicians and Surgeons, Fourth avenue and Twenty-third street, at which Dr. T. M. B. Cross read a paper on the treatment of sciatica (neuralgia of the large nerve of the posterior part of the leg). He gave an ex-haustive resume of the causes and the modern treatment of the disease.

The following named gentlemen were elected vesterday afternoon directors of the Hudson Suspension Bridge and New England Railway Compension Bridge and New England Rainway Com-pany:—E. W. Serrell, John Q. Hoyt, Hiram Barney, B. E. Smith, J. H. Jackson, C. R. Griggs, A. S. Diven, D. C. Littlejohn, J. R. Macbeth, E. R. Wiswell, C. J. Pusey, L. T. Guthrie, A. W. Humphreys, The fol-lowing officers were also elected:—President, Charles J. Pusey; Vice President, John Q. Hoyt; Treasurer, A. W. Humphreys; Secretary, John R. Macbeth; Chief Engineer, E. W. Serrell.

A boy twelve years of age fell off a scow last evening about seven o'clock, in attempting to pass from a scow just above Christopher street to a pile from a scow just above Christopher street to a pile of logs moored near it, and designed for use in building the new builkhead at that point. He had on a plush cap without a rim, which a policeman took in charge. A bystander who had observed the boy said that he had on a round jacket fastened to the pants by the waist. He knew how to swim, as he had just been in bathing. He was not seen after he west down, and it is supposed he slipped under the logs and could not get out. Efforts were made to fish him up with poles, and a gentleman made two or three attempts to recover him by diving; but it was so dark between the logs and barge, and the water was so dirty, nothing could be seen. No one appeared to know who the boy was, or where he came from. The above description may be the only means his iriends may have for finding him out.

BROOKLYN.

The receipts for water taxes in May amounted to \$356,101.

The receipts of the Hack Inspector for license during the past month amounted to \$2,504.

The receipts for taxes by Collector Burrows during the month of May amounted to \$249,776.

The amount of collections in the Department of Arrears last month reached the aggregate of \$213,737, being an increase of \$41,010 over the month of April.

The Board of Aldermen referred the budget of expenses of the city and county government yesterday to a committee of eleven for considera-tion of the items thereof.

One thousand bouquets were received by the Ladies' Flower Mission at their hall in the Mercanthe Library building, Montague street, yesterday. The flowers were distributed among the hospitals and charitable institutions.

Yesterday afternoon Mathew Bochler, a glazier, while putting some glass in a window in the second story of No. 242 Wyckoff street, fell to the aidewalk and broke his neek. His body was taken to his late residence, No. 294 Powers street.

A communication was received from Mayor Hunter at the meeting of the Board of Aldermen yesterday in relation to the sufferers by the flood in Louisiana. A committee was appointed to assist the Mayor in the collection of aid for the needy.

"authorizing the filling of certain low lots in the city of Brooklyn," contracts have been made for filling lots in the Eighth, Tenth and Twenty-second wards, amounting to \$78.033. For repaying Myrtle avenue, which contract was made before the passage of the new charter, \$131,007 mas yet to be raised.

The Board of Estimates met yesterday in connection with the Supervisors' Committee, for the purpose of considering the county budget for 1875. The budget, as prepared by the Board of Supervisors, amounted to \$191,709, which was \$500,000 lest than last year, excusive of the amount asked by the Commissioners of Charities. The Contenties Commissioners of Charities. The Contenties Commission \$240,000.

William Deming brought an action against Captain Isaac Bourne, of the Second precinct, in the Brooklyn City Court, yesterday, to recover \$3,000 damages for assault. The plaintiff took offence at being watched, oa the night of December 12, 1873, and drew a pistor on aim, whereupon the Captain knocked him down and took ulm to the station house. The trial was concluded last evening, when the jury gave benning six cents damages.

WESTCHESTER COUNTY.

An inquest was held at Yonkers last evening, by Coroner Bassett, on the remains of an unknown express train on the Hudson River Railroad a short distance south of Hasungs. Becaused was apparently a laborer, about thirty years of age, and had on a suit of dark clothing. A sip of paper found on the body was marked "Patrick Lawiess, Beaver Meadow, Pa." The jury rendered a verdict of "Accidental death."

The June term of the Supreme Court and Court of Oyer and Terminer commenced yesterday morning at White Plains, before Justice Barnard, County Judge Cifford and the Justices of Sessions. As the citizens drawn to serve on the Grand Jury did not appear in sufficient numbers to make up the statutory quota necessary to transact business, the empaneling of that body was postponed until to-morrow. Meantime the hearing of motions in civil cases will occupy the attention of the Court,

The new Board of Excise Commissioners, now sitting alternately in the larger villages throughout the county, is being besieged by delegations, embracing both sexes, with petitions deprecating embracing both sexes, with petitions deprecating the indiscriminate granting of liquor licenses. Some of the temperance advocates express themselves as being sanguine in the belief of decreasing the present number of licenses at least fifty percent. Meanwhile it is confidently expected that those of the whiskey vending fraternity who are refused licenses will continue to sell their ardent fluids, knowing that when election time approaches they can readily make their peace with the leaders, who, for purely partisan purposes, singled out Westchester county for this latest specimen of special legislation.

COTTON EXCHANGE.

The Fog Whitstle at Sandt Hook.—New York. June 1, 1874. To the Editor of the Heraid:—I desire to call your attention to the coupable negligence of the men in charge of the steam fog whistle at Sandy Hook, as shown on Saturday morning last while my vessel was entering the harbor. The tog at the time being heavy and falling to sound the whistle, my pilot was unable to locate the whereabouts of the vessel, and we went ashore on the point of the Hook, where we remained until the tide changed; and the whistle did not sound until after we had been ashore at least half an hour, although the fog had shut down delase and heavy at half-past eight. Trustfur this will meet the attention of the proper authorities and that this evil will be remedied, I remain, your obedient servant,

Ship Property.—We have passed another month of

Master British ship William.

Shir Property.—We have passed another month of great dulness in this market, and the indications are we shall see more of it. The continued large arrivals of tonage in bullast (a fact unprecedented) seeking business from our ports naturally tend to keep our freight market at a low ebb. Business is also less satisatery at our Facilic ports, where freights are lower. As a consequence investors in this describion of property see less quence investors in this describion of property see less quence investors in this describion of property see less quence investors in this describion of property see less quence investors in this describion of property see less quence in our few are disposed to operate. The demand is quite limited, and values are more or less nominal.—a. J. Maguire's Circular, New York, June I.
